

Doggy Dietary Do's and Don'ts*

What foods are dog-friendly and which foods you should avoid.

✓ Safe for Dogs

Cheese

Go for low-fat cheese but only in small quantities.

Carrots

A great source of vitamins, minerals and fiber, just make sure they're bite-sized pieces!

Meat

Pork, beef, shrimp, fish and turkey are all great for dogs, just remove the bones before giving it to them!

Corn/Popcorn

Unsalted and buttered corn and popcorn can be a really fun and healthy snack for dogs.

✗ Unsafe for Dogs

Chocolate

Chocolate is a huge no go for dogs! It contains toxic substances!

Cinnamon

Eating Cinnamon can cause severe mouth irritation or low blood sugar.

Xylitol

Baked goods and candy contain xylitol, a sweetener which can lead to liver failure.

Raisins/Grapes

Raisins and grapes are one of the most toxic foods for dogs, they can cause kidney disease or failure in your dog.

Top Tips!

- ✓ Put food away immediately
- ✓ Dispose of packaging properly

24/7/365 Medical Hotline

When a pet emergency strikes, HomeAgain members have access to a 24-hour hotline staffed by a veterinary healthcare team. Members can receive advice & guidance on pet medical issues and poison exposures to help ensure that pets get the care they need.
