PREPARE

After figuring out if your lifestyle is right for a cat, you need to prepare.

Start by getting all the cat items you need including:

a collar

a bed

a litter box

a food bowl

a scratching post

toys

Have everything set up before you bring your cat home so they can start getting used to their new environment.

LET THEM EXPLORE

Introducing your cat to their new home can be stressful for them and you. When you bring your cat home, let them explore. Show them where they can find their food, litter box, and water, and then let them get used to their new surroundings. It will help them become comfortable quicker.

FEEDING TIPS

When feeding your cat, do not leave their food out at all times. Some cats will continue to eat until it is all gone, which can quickly make them overweight. Instead, feed them set amounts at different points throughout the day.

OTHER CARE TIPS

Cats may not be as playful as dogs but they still need toys and other items to keep them happy. Be sure to stock up on toys that you can use to play with them and keep them active. You will also want a scratching post to avoid your cat scratching your furniture.

Adopting a cat can be extremely rewarding, but make sure you know what you are doing before bringing them home! These tips can help you prepare for your new furry friend. Stop by Royal Pets to stock up on all the pet supplies you need.
