

# 1 SNAKE SAFETY

Tips to keep your pet safe during  
RATTLESNAKE SEASON

## 1 BE AWARE

Stay on hiking trails and keep your dog on a leash. If you encounter a rattlesnake stay calm and slowly back away from striking distance.

## 2 VACCINATE

The Rattlesnake Vaccine builds up your pet's immunity to rattlesnake venom and lessens the severity of symptoms from a bite. This is your best bet for your pet to survive!

## 3 KNOW THE SYMPTOMS

Recognize these symptoms and get your pet to the Vet! Puncture wounds, swelling, pain, panting, drooling, diarrhea, seizures, and muscle tremors.
